

The world famous Red Gill Original Lures were designed and manufactured in Cornwall in the 1950's and are still produced by us in the South of England.

RED GILL ORIGINAL LURES - THE ORIGINAL AND ULTIMATE IMITATION SAND EEL

Due to its unique tail action the eel provides a life-like imitation of an injured sand eel making it irresistible to predatory species. Can be fished either from shore or boat; usually on a long flowing trace, which will help give the lure the best possible fish catching action. These lures will out-fish and out-last most other artificial baits on the market.

70MM - FLASHER = 4 PER PKT
With size 4 Aberdeen hooks.

115MM - RASCAL = 3 PER PKT
With size 2/0 Nickel hooks.

178MM - RAVER = 2 PER PKT
With size 6/0 Long Shank Nickel hooks.

RED GILL VIBRO SHADS - NEW

A slim profiled, internally weighted lure with a large paddle tail with glass rattle, and deep ribbed body. These features combine to give maximum vibrations and the ultra realistic action of the lure make it an awesome catcher of Bass, Pollock and Cod. They are made from super tough material, rigged with Mustad hooks, giving them a longer life span than most other soft baits on the market. 130mm - 22g - 3 per pkt.
